

Hate speech messages

You're poor, you shouldn't be in the same class with us. Your parents are lazy and they don't want to work. That's why you don't have the money to buy expensive clothes and your mobile is a piece of shit!

You are a person with deficiencies. Why did you enroll in our school? You should live somewhere else, apart from us. We are healthy people, we don't want to be contaminated by your weakness. You are bad and ugly people!

If you're a Muslim, it means you're in touch with the terrorists. You like making bombs and harming innocent people. You should be sent somewhere, away from us, or back to your country.

I won't tell you anything. You, girls, you can't keep a secret, you're not trustworthy. As soon as we tell you something, you start commenting and gossiping. You are lying and misleading. We don't need you!
